

## **Join Delphi - Where Innovation meets transformation**

At Delphi, we believe in creating an environment where our people thrive. Our **hybrid work model** empowers you to choose where you work—whether it's from the office, your home, or a mix of both—so you can prioritize what matters most. We are committed to supporting your personal goals, family, and overall well-being while driving transformative results for our clients.

We welcome exceptional talent from anywhere across the globe. Interviews and onboarding are conducted virtually, reflecting our digital-first mindset.

Rooted in the region, we specialize in delivering tailored, impactful solutions in **Data, Advanced Analytics and AI, Infrastructure, Cloud Security, and Application Modernization**. Whether it's enabling **predictive analytics**, transforming operations with automation, or driving customer engagement with intelligent platforms, we are the trusted partner for organizations ready to embrace a smarter, more efficient future.

### **About the Role: Associate**

**Location:** India - Remote

We are looking for a proactive and detail-oriented Associate Intern to support the Director leading the Data & AI Business Unit across delivery management, pre-sales coordination, business operations, and strategic initiatives. This role is ideal for someone who wants exposure to the consulting, delivery, and business side of Data & AI projects while working closely with leadership.

### **What You'll Do:**

#### **1. Delivery & Project Coordination**

- Support in tracking ongoing Data & AI project activities
- Coordinate with internal stakeholders for status updates and follow-ups
- Assist in maintaining project trackers, dashboards, and reports
- Help in documentation and meeting notes for delivery reviews
- Track action items and ensure timely closure

#### **2. Pre-Sales & Business Support**

- Assist in proposal creation, presentations, and pre-sales documentation
- Support in preparing capability decks, case studies, and client materials
- Conduct market and competitor research related to Data & AI trends
- Coordinate with delivery and sales teams for required inputs
- Support in RFP/RFI documentation activities

#### **3. Reporting & Operational Support**

- Prepare weekly/monthly reports and status summaries
- Maintain data related to resource planning and project tracking
- Support leadership in business unit operational activities
- Organize and maintain business documents and trackers

#### 4. Strategic & Research Support

- Research industry trends in AI, Generative AI, Data Engineering, Analytics, and Cloud technologies
- Support in internal initiatives related to process improvement and business growth
- Assist in preparing business insights and management presentations

#### What You'll Bring:

##### Technical / Functional

- Basic understanding or interest in Data & AI domain
- Good knowledge of MS Excel and PowerPoint
- Familiarity with reporting and documentation tools
- Basic understanding of project coordination concepts
- MBA / BBA / Engineering / Management background preferred
- Prior internship/project experience in operations, analytics, consulting, or coordination is a plus
- Interest in consulting, AI, analytics, and technology business operations

##### Soft Skills

- Strong communication and interpersonal skills
- Good organizational and coordination abilities
- Attention to detail and ownership mindset
- Ability to multitask and work in a fast-paced environment
- Eagerness to learn and adapt.

##### What the Candidate Will Gain

- Exposure to enterprise Data & AI consulting environment
- Opportunity to work closely with business leadership
- Hands-on experience in delivery, pre-sales, and business operations
- Learning exposure across AI, analytics, and consulting ecosystem
- Cross-functional stakeholder management experience

#### What We Offer:

At Delphi, we are dedicated to creating an environment where you can thrive, both professionally and personally. Our **competitive compensation package, performance-based incentives**, and health benefits are designed to ensure you're well-supported. We believe in your continuous growth and offer **company-sponsored certifications, training programs**, and skill-building opportunities to help you succeed. We foster a culture of inclusivity and support, with **remote work** options and a fully supported work-from-home setup to ensure your comfort and productivity. Our positive and inclusive culture includes team activities, wellness and mental health programs to ensure you feel supported.
